Career Objective

Information Technology student with experience in backend development and a growing focus on Artificial Intelligence, particularly LLM-based systems. Actively applying and reinforcing programming concepts through practical work and mentoring sessions. Interested in developing real-world AI applications and improving through hands-on problem solving.

Education

- BS ADA University**, Information Technology GPA: 3.13/4.0 Sept 2020 – May 2025
- **Coursework:** Principles of Information Systems, Programming Principles 1 & 2 (C, Java), Calculus 1 & 2, Physics 1, Data Structures, Linear Algebra, IT Systems: Hardware & Software, Public Speaking & Persuasion, Writing & Information Literacy 1 & 2, Introduction to Sociology, Leadership, Fundamentals of Philosophy, Azerbaijani Studies, Web & Mobile I (HTML, CSS, JavaScript), Web & Mobile II (Spring Boot, Spring MVC, JPA, JDBC, REST APIs, Spring Security, Maven, Gradle, Docker)
- LTC Lab**, AI-Based Java Backend Development July 2025 – Present
- Focused on mastering Core Java, Data Structures & Algorithms, and System Design
 - Gaining hands-on experience in Spring Boot, Microservices, and AI Agent Development
 - Developing enterprise-level backend applications integrating Artificial Intelligence components

Technical Skills

Programming Languages: Java, Python

Frameworks & Libraries: Spring Boot, Spring Framework (Core, MVC, Security, Data JPA), Hibernate, Flask, RESTful API Development

Databases: PostgreSQL, MySQL

Web Technologies: HTML, CSS, JavaScript, RESTful APIs, JSON, Bootstrap, Responsive Web Design, Thymeleaf, Swagger

Tools & Platforms: Git & GitHub, Docker, Postman, Gradle, Maven, IntelliJ IDEA, Visual Studio Code, Jupyter Notebook, Jira, Slack, n8n, Trello

Operating Systems & Environments: Windows, macOS, Linux (Ubuntu), Command Line Interface (CLI)

Additional Skills: API Design, Containerization, Version Control, Networking Fundamentals

Experience

- LTC Lab**, AI Engineering Mentor Baku, Azerbaijan
March 2026 – Present
- Mentoring students in Artificial Intelligence and backend development, focusing on Python, machine learning, and real-world project building
 - Guiding students through hands-on coding exercises, problem-solving tasks, and real-world implementation scenarios
 - Reviewing student code to identify logical errors, improve structure, and reinforce

correct implementation of core concepts

Green Public, Freelance Full Stack Engineer

- Built frontend features from scratch by converting Figma designs into responsive and maintainable user interfaces using Vue.js
- Extended and modified existing frontend and backend systems, implementing new features and improvements
- Completed assigned tasks independently and incorporated feedback to ensure correctness and code quality

Baku, Azerbaijan
October 2025 – Present

Bilgin Academy, Freelance Content Editor

- Edited short-form video content for Instagram, TikTok, and YouTube using CapCut, based on raw recordings provided by the team
- Designed thumbnails and promotional posters using Canva to support social media content
- Applied structured editing, pacing, and layout techniques to produce clear and visually consistent content

Baku, Azerbaijan
February 2026 – Present

Neurotime, Software Engineer Intern

- Developed backend applications using Spring Boot and FastAPI, including token generation and text processing with Regex
- Implemented containerization using Docker for deployment
- Demonstrated strong problem-solving skills by completing tasks independently

Baku, Azerbaijan
June 2024 – August 2024

Guavapay, Customer Service Representative

- Responded to customer inquiries via live chat, providing timely and accurate assistance on financial products and services
- Ensured clear, professional communication to resolve issues and maintain customer satisfaction

Baku, Azerbaijan
June 2025 – October 2025

Turkish Airlines (Positive CC), Customer Service Representative

- Assisted customers with flight bookings, modifications, cancellations, and check-in issues
- Provided accurate information on flights, baggage policies, and travel requirements while ensuring professional communication

Baku, Azerbaijan
June 2023 – August 2023

Projects

SCOUT: A Solution to Automatic Inspection of Outdoor Advertisement Banners

[Project Repository](#) 

- Built a hybrid AI system using YOLOv11 and OCR to detect and geolocate outdoor advertisement banners from urban videos, enabling accurate geospatial mapping
- Designed and deployed a Flask-based web app for video upload, detection, and visualization; Tools: Python, YOLOv11, OpenCV, Flask, PostgreSQL, Tesseract OCR

QR Code-Based Restaurant Ordering System

[Project Repository](#) 

- Developed the backend of a restaurant ordering system in a 5-member team, applying layered architecture, PostgreSQL persistence, and clean separation of concerns
- Designed secure RESTful APIs with JWT-based role control and implemented RabbitMQ for real-time order notifications; Tools: Java, Spring Boot, PostgreSQL, RabbitMQ, Redis, JPA, Gradle, JWT

Publications

SCOUT: A Solution to Automatic Inspection of the Outdoor Advertisement Banners

- Co-authored a research paper presenting a hybrid AI system for detecting and geolocating outdoor advertisement banners from urban videos
- Applied YOLOv11 with a custom dataset, OCR with GPS metadata, and deployed a Flask-based web app for visualization; Authors: Jamal Hasanov, **Eljan Abdullazada**, Toğrul Babayev, Vagif Karimli, Nizami Guliyev;

Journal of Problems of
Information Technology
(JPIT), 2025 [🔗](#)

Languages

Azerbaijani (native), Turkish (fluent), English (advanced), German (intermediate)

Soft Skills

Communication, Critical Thinking, Analytical Skills, Teamwork, Time Management, Adaptability, Responsibility, Deadline Management, Leadership

Certifications

- EAPP (English for Academic and Professional Purposes), B2 English Proficiency Certificate, 2021
- Certificate of Completion: ADA Employability Week, April 14–23, 2025
- Certificate of Recognition: Successful completion of German language A2 level course, Spring Semester 2025
